These rates are fixed for the term of the deposit. Different rates may be available for large amounts.

Please note that interest on Watani Super Accounts is paid quarterly and interest on Notice Accounts is paid monthly.
The compounding effect of interest being paid more than once a year means that customers receive a slightly higher Annual Equivalent Rate (AER).

This is set out in the Summary Boxes for Notice Accounts, which are available on our website.

Note that interest rates for certain accounts in Euros is negative. This means the customer is charged interest for holding the deposit.
