<b>What is the interest rate?</b>	<p>Interest is paid quarterly after you make your first deposit. Gross p.a. is the interest rate without tax deducted. AER stands for Annual Equivalent Rate and illustrates what the interest rate would be if interest was paid and compounded once a year. After rounding to two decimal places the AER is currently the same as the gross rate.</p> <p>If the balance falls below the minimum deposit required for that particular currency we will not pay any interest. The minimum deposit required is set out below under "How do I open and manage my account?"</p> <p>Please ask us about deposits in other currencies. Different rates may be available for large amounts.</p>				

<p><b>Can National Bank of Kuwait (International) Plc change the interest rate?</b></p>	<p>The interest rate on a Watani Super Account is variable. For interest rate reductions we will notify you at least 14 days before the change takes effect. Other changes will be notified to you shortly after they take effect.</p>										
<p><b>What would the estimated balance be after 12 months based on a GBP 100,000 or EUR 100,000 deposit?</b></p>	<p>If you deposited GBP 100,000 into a Watani Super Account, at a rate of 0.10%, your deposit would grow to GBP 100,100 (including interest of GBP 100).</p> <p>If you deposited EUR 100,000 into a Watani Super Account, at a rate of -0.40%, your deposit would reduce to EUR 99,600 (reflecting the deduction of EUR 400 interest). This is because the interest rate for Euro deposits is currently negative, which means we charge you interest for depositing.</p>
