

26/4/2026

Please be informed that our bank is one of the founders of the Iraqi Company for Deposit Insurance, with the contribution of many governmental and private banks in its establishment (a common joint stock company) under the supervision of the Central Bank Iraq, to increase the confidence between our bank and our valued customers.

The objective of establishing this company is to protect depositors' money, preserve their rights, and increase their confidence in the banking sector to achieve financial stability for our society, and to provide a guarantee for the clients' deposits with Iraqi banks and reduce hoarding the money.

The role of the company is a compensatory one, which is to monitor the use of customers deposits by the bank if that use does not conflict with the standards and instructions issued by the Central Bank of Iraq.

We would also like to point out that the bank's deposits are subject to insurance by the Deposit Insurance Company.
