- Is broader than Boards and Committees; it extends throughout the organization, and includes elements of internal controls, ethics, various risk functions, policies and procedures, compliance, internal audit, and external audit.
- Requires transparency of disclosure, effective communication, and proper measurement and accountability as essential elements for good governance.
- The Bank has developed its Corporate Governance framework to the highest standards defined by leading professional bodies and regulatory authorities. It is embedded into the day-to-day business and practices of the Bank and has evolved to reflect the Bank strategy, lessons learnt and the global leading practices.

- The Bank as a whole, along with the Board, Senior Management and all employees are collectively responsible for integrating the Corporate Governance framework into their day-to-day activities.
